The Digital Identity Era: Fintech, Biometrics and Beyond

Thursday, December 11th, 09:00-14:30

Orgler Auditorium, Lorry I. Lokey Building,
Tel Aviv University

Join us for a groundbreaking event at the intersection of fintech, biometric innovation, and digital identity. As cyber threats evolve and traditional authentication methods become obsolete, we are convening global experts to explore how behavioral biometrics, deepfake-resistant technologies, and ethical AI are reshaping the future of financial security.

Don't miss this opportunity to engage with leading voices from industry, academia, and government.
